

# THE °CLIMATE GROUP

"The Climate Group is excited about the latest success of Better Place. By working with DONG Energy to ensure the use of off-peak renewable-generated energy, this project will bring electric vehicles to life in a truly low carbon way. It will demonstrate how the electric vehicle and renewable energy industries can act in synergy to strengthen the economic argument for both."

--- Steve Howard, CEO, The Climate Group, [www.theclimategroup.org](http://www.theclimategroup.org)
